Studio

A

Studio A is equipped with a Mac Pro 8-Core system and Pro Tools HD with 24 bit 192khz recording capabilities. Alongside the flagship SSL 9000J and Studer 2" tape machine, this is the best setup money can buy. The control room consists of Genelec, KRK and Yamaha monitors, a vintage LA-2A, Avalon microphone preamplifiers, Apogee AD/DA converters, a plethora of effects units and rack mount processors. Pro Tools is equipped with Waves Mercury plug-ins. Studio A has been acoustically treated with floating structures and offers a band room, drum hall and three vocal chambers offering the utmost in flexibility and spacious recording environments.

"I always find it shocking just how incredible the audio recordings are that come out of Top Banana Recording Studios!"

-Johnny Dough

The SSL 9000J in Studio A

Studio B

is the "little engine that could" of Top Banana Recording Studios. Rivaling most A rooms, studio B is equipped with a Mac Pro Quad Core and Control 24 console. The HD Pro Tools system will serve every artist's needs in a timely and affordable fashion. The control room consists of Yamaha monitors and can be equipped with a number of different outboard processors and effects racks by request. Don't fret about space, the two vocal booths and band area leave plenty of room to rub elbows with band mates, family, and friends!
